Projects

Dekozy E-Commerce App with Admin Panel

Flutter, Dart, GetX, Firebase, Cloudinary

Built a cross-platform e-commerce app with Flutter and a responsive web admin panel. Integrated Firebase for authentication, Firestore for real-time data, and Cloudinary for image storage. Used GetX for state management and navigation. The admin panel enables product and order management, inventory control, and smooth UI updates, ensuring a seamless user shopping experience and efficient admin control.

Money Tracker App

Flutter, Dart, Bloc, Hive

Developed a money tracker app using BLoC for state management and Hive for local data storage. Enabled users to add, edit, and categorize expenses and income with real-time UI updates. Focused on efficient data handling and a smooth, responsive interface.
